Experience

Codingworkx

Mar 2025 – Present

Software Developer

Noida, India

- Developed and maintained production-grade full-stack applications using **React.js**, **Next.js**, and **REST APIs**, serving **10K+ users** with a focus on scalability, performance, and reusable architecture.
- Designed and enhanced admin platforms used by **50+ internal users** to manage **10K+ customer records**, implementing secure authentication flows, role-based access control, Google Maps integration, and CRUD operations.
- Built and optimized **30+ dynamic pages** using server-side rendering and API-driven architecture, improving application performance and user engagement.
- Structured applications using reusable design patterns and modular architecture, improving maintainability and scalability across multiple products.

Codingworkx

Sep 2024 – Mar 2025

Software Trainee

Noida, India

- Collaborated within an **18-member cross-functional team** to develop modular admin systems using **React.js**, Redux, and CoreUI, contributing to feature development and codebase refactoring.
- Implemented role-based user management, order history modules, and integrated **8+ REST APIs** supporting **5K+ users**, ensuring efficient state management and seamless user experiences.
- Developed reusable UI components and content-driven pages integrated with **Strapi CMS**, improving maintainability across **15+ modules** while gaining hands-on experience with API integration and structured content rendering.

Softpro India Pvt. Ltd.

Jul 2024 – Sep 2024

MERN Stack Trainee

Lucknow, India

- Built multiple full-stack applications using **MongoDB**, **Express.js**, **React.js**, and **Node.js**, implementing authentication, RESTful APIs, and frontend-backend integration.

Projects

Pathshala | *React.js, Node.js, Express.js, MongoDB, Redux, Razorpay* | Live | GitHub

- Built a full-stack MERN e-learning platform with role-based workflows for students and instructors, enabling course discovery, content management, and secure access across **10+ modules**.
- Implemented **JWT + OTP authentication**, cookie-based sessions, **Razorpay** payments, and structured state management using Redux to deliver a scalable and seamless user experience.

HealthSync | *React.js, Node.js, Express.js, MongoDB, Cloudinary, Razorpay* | User | Admin | GitHub

- Built a full-stack doctor appointment platform with role-based workflows for users, doctors, and admins, enabling appointment booking and management.
- Integrated **JWT authentication**, **Cloudinary** media storage, and **Razorpay** payments while developing a responsive React frontend with efficient API integration and state management.

Technical Skills

Languages: JavaScript, TypeScript, Java

Frontend: React.js, Next.js, Redux Toolkit, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Socket.IO

Databases: MongoDB, MySQL, PostgreSQL

Cloud & DevOps: AWS (EC2, S3, IAM), Docker, Linux, Nginx, GitHub Actions, CI/CD, Vercel, Render

Tools & Platforms: Git, GitHub, Postman, VS Code, Firebase, Cloudinary, Figma

Education

I.T.S. Engineering College

Bachelor of Technology in Computer Science

Sep 2022 – Nov 2025

Greater Noida, Uttar Pradesh

Certifications & Achievements

- AWS Cloud Practitioner Essentials** – AWS Training and Certification.
- Solved **500+ Data Structures & Algorithms** problems across **LeetCode** and **GeeksforGeeks**.
